EQUIPMENT AND TOOLS FOR WOODWORKING

Equipment for carpentry production
Sawmill equipment
Drying equipment
Wooden houses construction
Equipment for production of wooden boards
Equipment for windows and doors production
Aspiration systems

Equipment for the production of flooring
Equipment for wood trim production
Equipment for laminated articles production
Finger jointing equipment
Tools and equipment for preparation of tools

■EQUIPMENT AND TOOLS FOR FURNITURE PRODUCTION

Cutting machines
Edge banding
CNC processing centers
Boring machines
Surface technology
Collating, assembling and packaging product systems

Engineering and automation
Software
Tools and equipment for preparation of tools
Aspiration systems

■LOGGING MACHINES

Skidding and cable logging equipment
Cranes and other forest equipment
Portable chain saws and auxiliary equipment
Drag carts / skidding trailers

Skidding cables, skidding choker, safety belts and accessories
Skidding winches, skidding tongs
Truck loading cranes and log grabs

■EQUIPMENT FOR WOOD WASTE UTILIZATION

Equipment for wood wastes utilization
Equipment for production of briquettes, pellets, chips
Equipment for energy generation using wood fuels

THEMATIC SECTIONS

■ PAINTWORK MATERIALS, ADHESIVES, SEALANTS AND WOOD PROTECTION

Paints, coatings, lacquers
Adhesives
Sealants
Wood protection

■ AUXILIARY EQUIPMENT

Independent computer software
Independent engineering and consulting services for the wood industries
Automation systems
Vacuum equipment
Components for industrial equipment
